

## **Criterion IV – Infrastructure and Learning Resources and SDG's**

The Criterion IV and its Various Sub criteria related to development and maintenance of Infrastructural and learning resources specifically mentioned as Library, IT, Physical and Academic Infrastructure are important for the overall development and growth of the Institution and well-being of the students that are aligned with the overall vision of various SDG's mentioned below :

### **4.1 Physical Facilities**

Multipurpose Hall, Open & Indoor Gym etc. are various dedicated spaces have been developed specifically for Yoga and conduction of sports activities for not only ensuring good health and all round development of the students but also empowering them aligned to the Mission of the Institution and vision of SDG - 3.

### **4.2 Library as a Learning Resource and 4.3 IT Infrastructure**

e - resources, e- books, online journals (Library as a Learning Resource in 4.2) and e – Modules, IT & Internet facilities (IT Infrastructure in 4.3) are all envisioned with the basic objective of not only providing Quality based skill Education but also enhancing it, and aligned with not only the Mission of the Institution but also larger vision of Sustainable Development Goal - 4

#### 4.4 Maintenance of Campus Infrastructure

- Installed RO for clean Drinking Water at different places in the Institution for provision of safe and clean drinking water
  - Sanitary napkins Vending Machines are placed in the toilets for Girls ensuring clean sanitary standards in the Institution
- Both are aligned to sub criterion 4.4.2, regarding Maintenance and Utilization of physical facilities and Infrastructure.

- All Library resources whether physical or e- resources create a learning Environment that not only is Economic Growth oriented but also develops productive capacities of the students and is aligned to the SDG - 8 of decent work and Economic Growth.

- Both Learning Resources of the Library as well as IT Infrastructure provides access to whole of the Institution directly and indirectly through its huge repository of learning resources as well as IT enabled services and learning tools.
- e – modules a part and parcel of sub criterion 4.3 Promotes Digital Learning environment that also aids in creativity & innovation and these are neigh impossible without a sound IT infrastructure.
