

BEST PRACTICES

1. TITLE OF THE PRACTICE

LEGAL AID CLINIC

2. OBJECTIVES

- To provide services to the weaker sections of society.
- To resolve disputes through conciliation, thereby preventing the disputes from reaching court.

3. CONTEXT

The **LEGAL AID CLINIC** of the college is providing effective attainment of justice to marginalized community, especially female students of the college, staff their family members and nearby society.

4. PRACTICE

- DLSA appointed two attorneys to ensure the Legal- Aid Clinic runs smoothly.
- The Legal Aid team was trained by DLO .
- Students participated in National Lok-Adalatat district Court.
- LAC organized programs like International Girl Child Dayand Orientation program
- NLUI students visited to Legal Aid Clinic for internship programs.

5. EVIDENCE

- Student team participated in the National Lok-Adalat proceedings conducted by District Legal Service Authority.
- A letter of appreciation was provided to LAC Team of college by District Judge Bhopal
- More than 25 cases were resolved coordinated by empanelled advocates and Legal Aid team.

6. PROBLEMS ENCOUNTERED AND RESOURCES REQUIRED

Although the LAC professor and student team is hardworking, the absence of designated full-time faculty has an impact on daily task monitoring , especially when students are taking exams.

7. NOTES

To have a successful legal aid movement in India, it needs to take appropriate steps by spreading awareness about fundamental rights. The only objective is to provide 'equal justice to all'.

1. TITLE OF THE PRACTICE-II

AWARENESS TOWARDS ENVIRONMENT AND SUSTAINABILITY

2. OBJECTIVES

- Promote ethos of conservation of natural resources.
- To create a campus that is self-sustaining and eco-friendly.

3. CONTEXT

With its green campus initiative college protects its own environment and maintains a pollution-free campus where environmental friendly practices encourage sustainable system. These efforts assist students to protect the environment.

4. PRACTICE

Students learn about protecting the environment and sustainability by adhering to the college's environmental policy and taking part in activities with the organisations with which the college has MOUs. The programs to aware students like-Plantation Drives, Clean campus Drives, Commemoration of several environmental days, Training Programmes, Activities related to sustainable Growth, Tours and visits are organized regularly

5. EVIDENCE

The college has a repository of different seeds in Seed Bank , Herbaria document of the college's flora' Botanical Garden, two green houses, Hydroponic unit, Vermi-composting pit, compost pit, solar power plant, Solar lights, Rain Water Harvesting and a pond for hydrophytic plants.

6. PROBLEMS ENCOUNTERED AND RESOURCES REQUIRED

More human resources are required to maintain the garden, green house and the plants of campus.

7. NOTES

Every student has to be made aware of their contribution to control pollution and what can be done to reduce it and using more eco- friendly energy sources .
